OUR **VISION**

ABOUT BENQ CORPORATION

Founded on the corporate vision of Bringing Enjoyment 'N' Quality to Life, BenQ Corporation is a world-leading human technology and solutions provider aiming to elevate and enrich every aspect of consumers' lives. To realize this vision, the company focuses on the aspects that matter most to people today — lifestyle, business, healthcare and education — with the hope of providing people with the means to live better, increase efficiency, feel healthier and enhance learning. Such means include a delightfully broad portfolio of people-driven products and embedded technologies spanning digital projectors, monitors, interactive large-format displays, audio products, cloud consumer products, mobile communications and lifestyle lighting. Because it matters.

MISSION STATEMENT

Our core values guide everything we do — from the people we hire, to our products and services,
to our business partners and customers.

- We aim to become a world leader in materials science through continuous innovation.
- We aim to become a reliable and trustworthy partner in the supply value chain.
- We aim to develop a healthy, eco-friendly and sustainable business.
- We care about the community and environment we live in and the people we interact with.

AWARD & **CERTIFICATE**

BRINGING ENJOYMENT 'N' QUALITY TO LIFE

LIFE defines the four areas of business that BenQ operates within today. These include: lifestyle, business, healthcare, and education. The four letters of the word LIFE represent our involvement in these four areas:

Living Better
People are living better with BenQ digital lifestyle devices.

Increasing Efficiency
Businesses are increasing efficiency with the help of BenQ professional electronics, software and energy management solutions.

Feeling Healthier
People of all ages are feeling healthier thanks to BenQ medical services, medical equipment, and healthcare products.

Enhancing Learning
Educators and administrators are enhancing learning with the help of BenQ projection systems.

BENQ KNOWLEDGE

HDRi.

Expanded Immersion by HDRi Technology

Apart from standard HDR mode, you can either choose Game or Cinema HDRi mode which is supported by BenQ's exclusive B.I.+ technology. Game HDRi reveals details in the darkened areas, and Cinema HDRi adds refined color saturation.

Display HDR   Game HDRi   Cinema HDRi
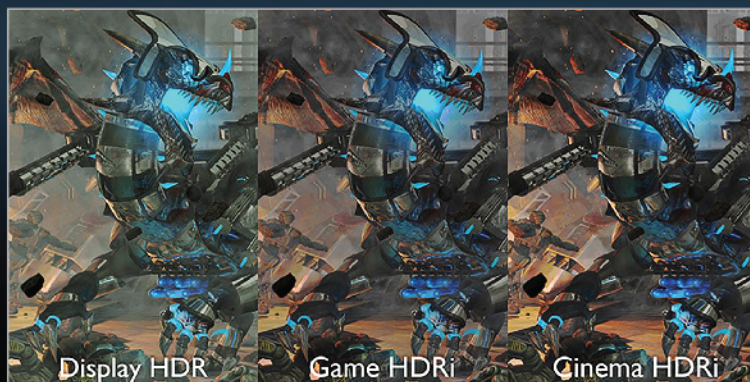

Detect the ambient light & adjust the brightness

Light Environment   Dark Environment

Brightness Intelligence Plus

The BenQ Brightness Intelligence Plus (B.I.+Tech) technology goes a step further. A built-in ambient light sensor detects the changing light levels and the color temperature in your viewing environment, automatically adjusting on-screen brightness and color temperature to fit your surroundings. It also gradually adjusts brightness based on one's usage time. This offers the best display quality for your viewing comfort, preventing eye strain and protecting your eyes after you watch monitors for hours.

With B.I.+ Tech. colors stay original for picture perfect content. B.I.+ Tech. adjusts brightness to avoid overexposure and to enhance details in dark areas, preserving original color saturation and hue with smooth gradation.

treVolo

Superior True Sound by treVolo with Customized Sound Modes

Built-in treVolo speakers offer acoustic enjoyment and a desk clear of external speaker clutter. Stellar acoustics and five custom sound modes are tailored for ideal audio. Add in treble, mid-range, and bass balance for the best monitor audio you've ever experienced.

BenQ Color Weakness Mode to Bring the Easier View to Those in Need

BenQ EyeCare technology has developed the Color Weakness Mode* customized for the color weak to offer them with an easier view by enhancing color tones and tuning the color filters based on face-to-face interviews with the users. With the BenQ Color Weakness Mode, people with color weakness can decipher the pie charts, statistics and pictures in an effortless way and thus enjoy a view with distinguishable shades of color and an improved colored view.

MONITOR **KNOWLEDGE**

HOW TO CHOOSE A MONITOR FOR DIFFERENT TYPES OF USERS, BASED ON THE USER'S SCREEN TIME?

Consumers who are concerned about eye protection and viewing comfort can use this buying guide to help pick out a monitor suited to their needs. 4 groups of users are categorized according to their monitor time/usage and are provided the following technologies: low blue light, low blue light plus, brightness intelligence and brightness intelligence plus; to lessen their digital eye fatigue and be granted with better eye protection.

Ultralight Usage Recommendation

Ultra-Lightweight Group (1-5 hours a day)

Primary School Students
Senior Citizen

User Habit:
• Web-surfing, casual reading mode
• Users with fragile eyes

Benefit:
• Filter out invisible flickering
• Filtering of blue light

Light Usage Recommendation

Light Usage Recommendation

White Collar Workers
University Students
House Wife

User Habit:
• Attentive work mode
• Usage across multi-devices

Benefit:
• Keep your eyesight with good blue light

Medium Usage Recommendation

Middleweight Group (9-15 hours a day)

Academics
Video Gamer
Graphics Designer

User Habit:
• Intensive, attentive and highly detail-oriented mode
• Some often work on the dark screen and thus sensitive to the ambient light

Benefit:
• Smart sensor which senses internal and external light sources
• Brightness adjustment

High Usage Recommendation

Heavyweight Group (Up to 15 hours a day)

Designer / Finance
Architect

User Habit:
• Intensive, attentive and highly detail-oriented mode
• Sensitive to color temperature in their work environment

Benefit:
• Smart Sensor which senses internal and external light sources
• Adjust the brightness and color temperature

PRODUCT **FEATURES**

eye-care™
Caring for Your Eyes
BenQ's industry-leading eye-care technologies reduce eye fatigue while ensuring greater user comfort after a long period of use.

4K HDR | 8.3M PIXEL
4K HDR
4K refers to a monitor resolution that is roughly 4,000 pixels wide.

Brightness Intelligence Plus
Reads and adjusts display brightness and color temperature for your most comfortable viewing experience.

AMD FREESYNC TECHNOLOGY
Free Sync
Designed to reduce screen tearing while playing video games.

HDRi.
HDRi
HRDi improves image contrast and clarity for greater detail.

Flicker-free
ZeroFlicker
Eliminate flickering at all brightness levels to reduce eye strain, headaches, and decreased productivity.

Brightness Intelligence
Optimizes display performance for work and play, protecting your vision with superb image quality.

DisplayHDR 400
DisplayHDR 400
Offers enchanced brightness and contrast to add incredible details and vividness to HDR content.

treVolo
treVolo True Sound
BenQ Mobiuz has two 2.5W speakers and a DSP (Digital Signal Processor) with three customized sound modes.

Low Blue Light
Low Blue Light
Effectively diminish eye fatigue and irritation for improved viewing comfort.

ZOWIE

a brand by BenQ

BRINGING YOU THE

BEST GAMING MONITORS

ZOWIE is purely esports minded. The monitor is the smoothest and clearest with 144Hz/240Hz and DyAc Technology, due to the requirement of world class professional players. It's best suited for competitive gamers, and FPS enthusiasts.

Black eQualizer - *Spot enemies hiding in the dark*

Brighten the dark areas without overexposing areas that are already bright. Remove your doubt when scanning your scene, enabling you to see your targets before they see you.

Black eQualizer OFF

Black eQualizer ON

240Hz Refresh Rate *for Smooth Gameplay*

Catch every detail of motion and enjoy the most fluid gameplay with ZOWIE native 240Hz refresh rate monitor, which ensures a consistently flawless view of fast-motion at all times.
(Please make sure the PC performance is up to par to fully activate 240Hz)

144Hz

240Hz

Dynamic Accuracy Plus - *Enhance your vision on moving objects*

ZOWIE's exclusive technology "Dynamic Accuracy" maintains remarkable clarity during in-game movements, allowing for a smoother experience. Actions with vigorous screen movement, such as spraying of weapons, will benefit most from DyAc™ as the ability to see more clearly can help with recoil control.

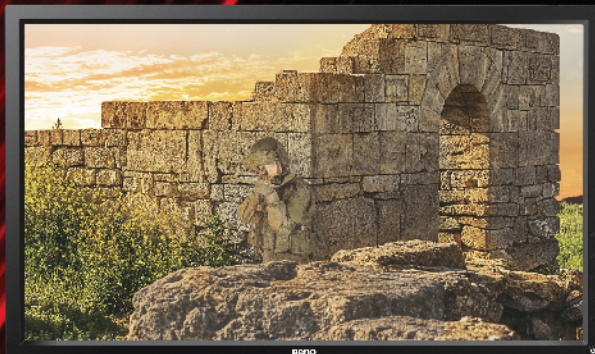

DyAc OFF

DyAc ON

Color Vibrance - *Identify your enemies effortlessly*

Color Vibrance gives you the flexibility to get the color performance. With 20 levels of Color Vibrance settings, you can get specific viewing requirements and preferences for all types of gameplay.

Color Vibrance- Low

Color Vibrance- High

XL SERIES

ZOWIE *a brand by BenQ*

ZOWIE's XL-series features the premiere esports gaming monitors for PC esports. It emphasizes high refresh rate performance for fast pace game titles. They are fine-tuned to guarantee the smoothest, the most responsive experience, and the clearest images to arm you for competition. Every detail of the XL-series is designed and fine-tuned by professional players based on actual in-game scenarios to guarantee an uncompromising experience.
