

BenQ DuoBoard for Whiteboarding

BenQ's new DuoBoard is enhanced by incorporating the advanced P-cap (Projected Capacitive) touch technology for accurate, precise touch responses on the screen for realistic handwriting. The EZWrite software takes it a step further, allowing for simultaneous collaboration and handwriting recognition.

- VGA Cable
- HDMI Cable
- Quick Start Guide

DuoBoard

By combining two DuoBoards together, users can extend their collaborations space, fostering teamwork and stimulating innovation.

OPS Module

The Optional Open Pluggable Specification offers the flexibility of supporting different videoconferencing solutions.

AMS System

DuoBoard supports multi-account management through NFC technology, which allows users to manage their personalized workspace without using a password.

Videoconferencing

Fully compatible with apps to make online meetings simple. With a one-click-to-start interface, you can host a high quality video conference by connecting various devices.

Germ-Resistant Screen

Multilayer coating of non-toxic, long lasting ionic silver nano agent kills most bacteria on contact, effectively blocking the spread of germs.

Flexible Annotation

EZWrite 5 streamlines discussions by letting users share notes and ideas from anywhere.
